

TREASURE OF BACHUÉ

Opening Night: Thu 29 June 2017, 6 - 9 pm

Exhibition Runs: 27 June - 9 July

Treasure Of Bachué is an exhibition of **new paintings exploring the feminine underworld by Colombian artist Katherine Gailer**. Bachué is a goddess, who according to the Muiscas (Indigenous people from the Andes), is the mother of humanity, a source of life and her treasure remains hidden in sacred mountains and beneath the feminine underworld. Gailer's compositions call upon the wild woman, her connection to the land and honor the empowerment of a new contemporary female identity.

This exhibition is proudly supported by The Global Women's Project.
